Mutual Evaluation Report

Anti-Money Laundering and Combating the
Financing of Terrorism

SIERRA LEONE

DECEMBER 2010

This is the 4th Follow Up report of Sierra Leone as presented to the Plenary in December 2010. It provides further update on the measures Sierra Leone has taken since its last follow-up report in May 2010 to address the deficiencies identified in its Mutual Evaluation Report adopted in June 2008. The country has been placed on the enhanced follow-up process and will submit a 5th Follow-Up report in May 2011.

I. INTRODUCTION

1. At the 13th Technical Commission/Plenary meeting of the Inter-Governmental Action Group against Money Laundering in West Africa (GIABA) held in May 2010 in Praia, Cape Verde, the Working Group on Mutual Evaluation and Implementation noted that Sierra Leone has not made significant progress in implementing the recommended actions in the Mutual Evaluation Report as evident in the country's third follow-up report. As a consequence, the country was moved from Expedited Regular Follow-up reporting process to the Enhanced Follow-up process.

2. This report therefore represents Sierra Leone's first Enhanced Follow-up report in compliance with the decision of the GIABA plenary. The report highlights the progress made since May 2010.

II. SUMMARY OF THE PROGRESS MADE BY SIERRA LEONE SINCE MAY 2010

(A) Provision of office space for the Financial Intelligence Unit

3. The Bank of Sierra Leone has allocated a secured office space to the Financial Intelligence Unit. The new office will ensure the safety and security of information at the disposal of the Unit.

(B) AML/CFT Bill

4. The revised AML/CFT Act was approved by cabinet and now with the Attorney General's office for drafting into a Bill for subsequent enactment by parliament.

(C) Other Developments in the Financial Sector

5. The Bank of Sierra Leone has established a Credit Reference Bureau. The Bureau will provide a guide to commercial banks in their credit risk management processes and also reinforce the customer due diligence principle, which is an essential component in the AML/CFT compliance framework for financial institutions.

6. Work on the Financial Sector Development Plan (FSDP) is at an advanced stage. The FSDP seeks to provide a framework for creating a sound, diversified, responsive and well-functioning financial system that would provide appropriate support to productive activities, thereby contributing to economic growth and poverty alleviation.

III. CONCLUSION

7. The draft AML/CFT Bill has provided stringent sanctions for non-compliance with its provisions. The enactment of the Bill will address the weaknesses highlighted in the Mutual Evaluation Report (MER).

8. The establishment of the Credit Reference Bureau and the implementation of the Financial Sector Development Plan (FSDP) will contribute to the strengthening of the country's AML/CFT regime.

9. The attached matrix summarizes the actions taken to ensure compliance with the recommendations of the MER.
