II. SUMMARY OF THE PROGRESS MADE BY SIERRA LEONE SINCE MAY 2009

(A) AML/CFT Bill

The Anti-Money Laundering Act 2005 has been revised to take into account the weaknesses highlighted in the Financial Sector Assessment Programme (FSAP) report. The key strengths of the draft AML/CFT Bill include, among other things, the criminalization of money laundering and terrorism financing, extension of the powers for freezing order from 72 hours to ten (10)

working days, strengthening the powers and functions of the Financial Intelligence Unit (FIU), provision of proportionate and dissuasive sanctions for non-compliance with provisions of the Act.

On 21st May, 2009, a national seminar was organised by the Bank of Sierra Leone to discuss the draft AML/CFT Bill. The seminar was facilitated by experts from the World Bank, UNODC, GIABA and the Legal Officer of the Bank of Sierra Leone. The participants were drawn from members of the Technical Committee on AML/CFT issues, Parliamentarians, Judges, Private Sector, Embassies, University of Sierra Leone and financial institutions.

On 30th September, 2009 the draft AML/CFT Bill was also discussed with the Parliamentarians at a training workshop organized by the Bank of Sierra Leone in collaboration with the World Bank and United Nations Office on Drugs and Crime (UNODC). The one-day training was aimed at enhancing the understanding of Parliamentarians on AML/CFT issues to facilitate enactment when the draft Bill is tabled in Parliament. The Bill has been forwarded to the Ministry of Finance and Economic Development and had been discussed in cabinet.

(B) NATIONAL STRATEGY ON AML/CFT

A National Strategy on AML/CFT issues, which provides a 5-year framework or road map to fight against money laundering and terrorism financing offences was developed and approved by Cabinet.

The five year strategic plan is aimed at achieving maximum political will, implementing a comprehensive AML/CFT legislation and regulations, empowering a successful fight against money laundering and terrorism financing through effective enforcement and resources to enhance international cooperation and build strategic partnerships.

(C) GUIDELINES ON THE PREVENTION OF MONEY LAUNDERING & FINANCING OF TERRORISM

In line with the Guidelines on the Prevention of Money Laundering and Financing of Terrorism issues, commercial banks are now reporting to the FIU all currency transactions in excess of twenty five million Leones (Le 25,000,000) for natural persons and one hundred million Leones (Le100,000,000) for legal entities. Through on-site examinations, staff of the FIU monitor compliance with provisions of the regulations and Anti-Money Laundering Act. Follow-up examinations are conducted on the currency transactions deemed to be suspicious. This process is meant to ascertain the nature and purpose of these transactions and determine whether there are sufficient grounds for suspicion.

(D) Guidelines on AML/CFT for other Financial Institutions are being developed by the Banking Supervision Department. It is expected that when these guidelines are finalised and issued to other Financial Institutions they will enhance their compliance with AML/CFT regulations.

(E) The Bank of Sierra Leone is currently reviewing the Bank of Sierra Leone Act 2000, Banking Act 2000, Banking Regulations 2003, Other Financial Institutions Act 2001 to ensure consistency with International best practices and to strengthen the supervisory framework for financial institutions. This by extension will greatly promote the fight against money laundering and terrorism financing.

(F) The Bank of Sierra Leone is currently developing a Financial Sector Development Plan (FSDP) aimed at enhancing the efficiency and effectiveness of the financial sector in promoting growth. The over-riding priorities of the plan are to strengthen the commercial banking system and improve its competitiveness, enhance rural financial access through microfinance institutions and community banks, and strengthen the enabling environment through the legislative, regulatory and policy infrastructure. The Plan which has been approved by the Government of Sierra Leone is supported by the World Bank, German Technical Cooperation (GTZ) and other development partners.

III. CONCLUSION

The draft AML/CFT Bill has provided proportionate and dissuasive sanctions for non-compliance with its provisions. The enactment of the Bill will address a lot of the weaknesses raised in the Mutual Evaluation Report.

The other developments in the financial system will contribute to the strengthening of the country's AML/CFT regime.

The attached matrix summarizes the actions taken to ensure compliance with the recommendations.
